## POLICE COURT

Yesterday Has a Number of Interesting Cases—Ed Barlow Convicted For Bootlegging on Second Trial.

In Police Court yesterday afternoon four cases were tried before Judge Whitaker and one before a jury. All of the cases except one were serious and all received stiff sentences.

Arnold Jonson, the man who escaped from Officer Stewart on Saturday night, was tried in Court for bootlegging, although he was not present. Under the new law regarding bootleggers they can be tried although not actually present. He was given a \$100 fine and 60 days in jail. If he ever returns to this city he will be at once apprehended and taken to jail to serve out the sentence imposed upon him.

Ream Ballard was held over to the March term of the Mason County Grand Jury for carrying a concealed weapon. Complaint had been made to the Police that Ballard had pointed a revolver at another. When arrested was found to have a large pistol on his person and the charge of carrying concealed deadly weapons was lodged against him. Spence Kimbro was sentenced to 60 yesterday.

### JUDGMENT FOR DEFENDANT

In the Mason Circuit Court yesterday the case of Theo B. Dryden against Vastine, Noland & Lowrey was tried before a jury and after hearing the evidence they gave judgment for the defendant. Young Dryden was pouring tar on the brick streets under construction by Vastine, Noland & Lowrey, although not an employee of the company. His foot became stuck in the tar and while endeavoring to pull loose the tar bucket he was carrying sloshed over him, burning his face and body. Wesley Gullett's administrator, who was given a verdict for \$1,000 against the C. & O. Railway by a jury on Saturday entered a motion for a new trial.

## TWO DEAD

And a Number of Others Seriously Burned in a Big Fire in the State Penitentiary at Frankfort—Bars are Battered to Release Inmates From Burning Cells.

Frankfort, Ky., January 8—More than forty prisoners were trapped in their cells, the key to which was broken, when fire destroyed cell house A and badly damaged cell house B of the State penitentiary here, just before midnight. Two of the convicts were burned to death, and thirty-nine others, now in the prison hospital, some seriously burned, owe their lives to the valor of their fellow prisoners.

Not in the history of this city have men dealt so carelessly with their lives as did the fire fighting force at the prison tonight. The only way that the imprisoned men could be reached was by scaling the walls of the burning building, by going through the flaming roof, and with the aid of chains, drop down on Walks 11 and 12, where the men were imprisoned and liberate them.

By the aid of crowbars, picks and sledge hammers, the iron doors were battered down and the half dying men were carried out to the walls and then let down with ropes to the rescuing party below.

William Jones, of Owingsville, was the first man to be rescued, and he was the first man to die. He was so far gone when he was taken from the burning prison that not even oxygen could restore him to life.

The same fate befell David Fife, of Lexington, a few minutes later.

### Rescue Attributed to Prayer

Every man taken from the building had a different story to tell as to their rescue, and all of them claimed that their rescue was the result of prayer.

Every physician in Frankfort was called to assist Dr. W. C. Caywood, the prison physician, to wait on the men. The fire did not reach the female department of the prison, so that there was no alarm from that source.

First among those at the scene of the fire was Governor Stanley and his secretary, Miss Minnie Maher. They were at work in the Governor's office when the word was sent to him that the prison cells were burning. He made the trip to the penitentiary with as much haste that he arrived there almost as soon as the city fire department arrived, and was soon on the inside of the walls directing the fire fighters.

More than once during the night did his friends go to him and warn him of the danger, not only from the falling walls and the burning timbers, but from the live wires, but he did not pay any attention to them and kept on directing the firemen until the last man was rescued. Then he went to the prison hospital with words of encouragement to the suffering men.

### Wiring Cause, Believe

The fire started in the old cell house, it is believed, from the electric wiring. It is constructed mostly of popular timber, a part of it having been built 120 years ago and part eighty years ago. It burned like tinder.

The building was the oldest in use at the reformatory and because the locking equipment was of old design it was necessary to unlock each cell individually. The key was broken early in the rescue work and before duplicates could be secured the entrance to the building was blocked by flames, leaving more than fifty prisoners cut off from escape.

### Prisoners in Temporary Quarters

A hurry call was sent to the city workhouse quarry for dynamite. A hole was made through the walls on one side of the building, which the flames had not yet reached, and the work of rescue resumed.

As the prisoners were released they were taken in charge by guards and herded into the reformatory dining room and chapel. More than fifty persons, overcome by smoke, were sent to the reformatory hospital after being revived. The burned buildings housed more than 800 prisoners. The entire population of the penitentiary, 1,500, are in the temporary quarters tonight. Hot coffee was served to them early this morning by Warden Mack Phibian.

Loss Approximately \$75,000

The loss to the State will be approximately \$75,000 and may run higher than that amount. The building destroyed was the first penal institution built in Kentucky.

### CELEBRATED GOLDEN ANNIVERSARY

Mr. and Mrs. G. W. Gaisel celebrated the fiftieth anniversary of their wedding at their home on Front street yesterday. Mrs. Gaisel was formerly Miss Mary Holmes of this city. The Ledger joins with many friends in wishing them the celebration of many more wedding anniversaries.

## HIGH SCHOOL LECTURE

The lecture which Julius Caesar Nayphe, native of Athens, Greece, is to give Tuesday evening, January 9th, on the Maysville lyceum course, refers to the geography and vegetation of the Orient, aecial customs, hospitality as the cardinal virtue of the Orient, the position of women, burial customs, and the prayers and worship of the Mohammedans.

The lecturer, speaking as an Oriental, gives his impressions of America. Also, he quite competently gives an adopted American's impression of the Orient. Nearly five years ago Mr. Nayphe came into full American citizenship.

### COUNTY COURT

In the Mason County Court yesterday the inventory and appraisement of the personal estate of James Bland, deceased, was introduced in court and filed and ordered recorded.

The Aid Society of the Christian Church will meet Thursday afternoon at 2:30 o'clock with Mrs. A. F. Stahl.

## LOCAL WOMAN

Will Preside at the Ninth District Convention of the Kentucky Federated Woman's Clubs at Ashland Saturday.

The Ninth District Convention of Kentucky Federated Woman's Clubs will be called at Ashland, Saturday, January 13, 1917. This promises to be a very interesting meeting. Many notable club women from all over the state will be there. Some of the speakers will be Mrs. Maurie Bartlett, president Kentucky Federation of Woman's Clubs, Mrs. John South, daughter of Ex-Governor Bradley, president of the Kentucky Equal Rights Association; Mrs. W. T. Lafferty, of Lexington; Dr. McCormick, of Bowling Green; Miss Jessie O. Yancey, of this city.

Every physician in Frankfort was called to assist Dr. W. C. Caywood, the prison physician, to wait on the men. The fire did not reach the female department of the prison, so that there was no alarm from that source.

## WILL CELEBRATE CENTENNIAL

Preparations are being made by the pastor of the First Presbyterian Church, Dr. John Barbour, to celebrate centennial of the establishment of the Presbyterian Church in this city. The centennial day will be on June 14th, and preparations are slowly being made to hold a great celebration at that time. Full announcements will be made of the centennial later through the columns of this paper.

### CHILD INJURED

Harry, the son of Mr. and Mrs. Stanley Brady of Houston avenue, was rather severely injured at the Forest Avenue School yesterday at noon when he was struck in the head by one of the swings on the playgrounds. A large gash was cut over the boy's left eye. He will suffer no inconvenience from the accident.

## Clothes Talks.

As has been our custom during this month for many years, we are making generous price reductions on all merchandise rather than carry it over. Of course, this may seem rather phenomenal this season, in face of soaring prices and the uncertain condition of the woolen market, yet we are going to adhere to our old custom, and give you the opportunity to supply your wants from our dependable merchandise at reduced prices.

Now is the time to get a good suit or overcoat—one that you can wear the rest of the season and have perfectly good for next. And let us give you another tip: We may not be able to guarantee the merchandise next season like we do this. So in face of all these conditions we advise that you buy now, as we offer such generous reductions.

Bargains in children's suits.

## \$1.00 CORSETS 79c; \$1.50 CORSETS \$1.19

Warner Corsets, correct models in perfect condition. Our only reason for reducing the price is that we are overstocked on small sizes. If that is what you wear, here is your chance for a splendid bargain.

## Women's Suits \$18.50 and \$22.50

Either is such an easy price to pay for a suit, especially when it means a saving of many dollars, for all our suits bear generous reductions.

## Worthy Umbrellas

Sometimes fancy handles are put on inferior umbrellas and sold at fancy prices. But be assured every umbrella here is of trustworthy quality, bought from manufacturers who make none but reliable goods.

NINETEEN SEVENTEEN

The political problems of this year, stated in terms of national legislation and administration, belong exclusively to the Democratic party. They will inaugurate a President—for a second term—in March; and they may be able to organize the House of Representatives in December. They already have and will retain the control of the Senate.

It will be their duty to our foreign relations amicably and honorably, to administer our domestic affairs economically and efficiently, and to provide revenues for the Treasury equitably and adequately. They will find ample occupation.

The Republicans also have work for Nineteen Seventeen. It is our duty to prepare for Nineteen Eighteen and for Nineteen Twenty. The weakness of the party, as revealed by the results of election, must be overcome. The organization must be strengthened and perfected—purged if need be—and the party spirit must be stimulated for the contests which are to come.

Freed from responsibility for national affairs, the Republican party nevertheless retains responsibility for the government of many of the States and for all of the important States. In these legislatures and in these State administrations the Republican party has the opportunity to demonstrate its character as a political organization, its efficiency as an instrument of government, and its value and usefulness to the people. This opportunity embraces no backward steps. Legislative advance—using the work because progressivism has taken on a narrowed political interpretation in recent years—must continue; the Republican party must carry it on. This way safety lies.

Nineteen Seventeen is prolific with promise for Republicanism. Republicanism must not neglect it.

### WHAT HAS HAPPENED TO PREPAREDNESS?

We don't hear as much about military preparedness as we did six months or a year ago.

Yet thousands of militiamen are still on the Mexican border doing the work of professional soldiers, and from the latest news it seems possible that they may do some real fighting before they return to their homes and vocations.

A German submarine has been busy at its commerce destroying work within a few miles of our shores. The conduct of the U boat's commander was strictly in accordance with Germany's promises to us—but suppose that he had made a mistake and torpedoed an American coasting steamer?

American citizens died when the British steamer Murina was sunk by a submarine off the Irish coast, and the severance of our diplomatic relations with Germany is a possible result.

The British navy still tamps with American mail bags.

Congress has authorized a large increase of our naval power, but no adequate increase in our land fighting force has been made.

Some day we will wake up to the necessity of real preparedness and universal military training and service—but it is likely to be the extremely uncomfortable awakening of the man who jumps out of his warm bed on a winter night because he smells smoke in the room.

### AN INVESTIGATION THAT FIZZLED

Recollecting how profuse the Department of Justice was in its dramatic threats of an investigation of alleged transportation of colored voters into northern states for the purpose of controlling the election, one cannot help wondering why the Department does not get busy with an investigation of the manner in which a few people were enabled to make fortunes out of the conflicting statements issued by the Department of State relative to the President's peace note. And, by the way, what ever became of that colored voters investigation, on which the Department of Justice employed a lot of its high-salaried agents just before election?

### TO AMERICANS FIRST

Secretary of the Treasury McAdoo estimates that the deficit this year will amount to \$185,000,000. It will be noted that he did not make his estimate public until after election. It is also worthy of note that Democrats propose every sort of scheme for raising more revenue except the easiest, and most useful method of increasing the customs duties, which would impose the tax upon the importer of foreign goods and encourage the development of domestic industries. As the tariff laws stand today, no man of business sagacity will invest in any permanent productive enterprise that will meet competition after the war.

### WHY BRING IT UP?

"Puck," a magazine which specializes on whiskey advertising pictures of naked women and highly sanctimonious political moralizing, says that it deserves considerable credit for Wilson's election because a few days before the election it printed a big streamer warning the people that that "the election of Hughes means war with all its horrors." It's seldom that anyone brags about printing a campaign lie so long after the occasion for doing the work is over.—National Republican.

### DISEASE GERMS IN BOOKS

(New York Sun.)  
The recent epidemic of infantile paralysis has intensified the unwholesome dread of disease germs, with which the public mind has long been obsessed. The health authorities are endeavoring to educate the public in the matter of cleanliness, which is imminent to the propagation of these germs. Abolition of the hands before eating has been especially insisted upon in this propaganda. A similar cleansing after soiling of the hands needs not to be emphasized. Unfortunately the majority of people do not realize the importance of these simple precautions, while on the other hand there are many persons with whom disease germs are a-betot hoair. They see death and sickness lurking everywhere, and like the "thief who sees a policeman behind every bush," they live in constant apprehension of germs. To these timid individuals a recent article in the Journal of the American Medical Association on "Bacteria on Paper Money and Books" may bring comfort.

The Sun has endeavored to present only the most reliable scientific aspects of the subject of germ diseases, because the usual hasty generalizations of science and baseless assertions which continually appear in print under the guise of scientific authority sooner or later redound to the discredit of real progress. An unwarranted scepticism is aroused and the distrust of an obvious misstatement unconsciously becomes magnified into a reactionary indifference to the better contributions of scientific men.

The championship of half or conjectured truths inevitably acts in the course of time as a barrier to the very objects which are sought in public reforms, for the end truth always prevails.

Some years ago The Sun called attention to the erroneous idea that tuberculosis may be contracted by persons using the telephone mouthpiece which has been used by many others. We showed that the postmaster general of Great Britain had the mouthpiece on the telephone under his control examined bacteriologically, with the result of no disease germs being discovered upon them. The Journal comments upon the popular opinion of a few years ago that the handling of soiled paper money was extremely dangerous on account of the bacteria that may adhere to it. The fact is that bank tellers do not share this aversion, nor do they present evidence of exceptional liability to infectious diseases. It has been positively ascertained and published in the Popular Science Monthly that paper money constitutes an unimportant factor in the transmission of disease. While clean paper money satisfies our esthetic sense, it has not been proved that soiled money is likely to become a medium of disease transmission.

With regard to books, it is the custom to disinfect them, when soiled, by exposure to sunlight and air, but it is a fact that the hygiene laboratory of John Hopkins hospital has not found germs of diphtheria, for instance, on books coming from homes in which children had been suffering from this disease. The fact is that the majority of bacteria found on books are the same as those found in atmospheric air, and that the colon bacterium, which is frequently found on the hands of school children, has rarely been found on the books they handle. There is really no material risk involved in the reissue of books recently read by consumptives, unless the books are obviously soiled, and even then the risks are very slight. Since, however, bacteria like the typhoid and diphtheria organism have been occasionally discovered on artificially infected books, there may be good reason for

subjecting all returned books to direct sunlight before redistribution.

Practically the danger from soiled money and books is no more obvious than the danger from the mouthpiece of the telephone.

New York, January 7.—Matthew Hale, acting chairman of the National Progressive party, announced tonight that permanent national headquarters had been opened in this city and that a committee for the Northeastern department had been appointed to aid in planning the conference of Progressives to be held in St. Louis on or about Washington's birthday. Mr. Hale asserted that committees soon would be named for the Southeastern, South Central, East Central, West Central and Western departments.

### NO IMPROVEMENT IN THE CONDITION OF "BUFFALO BILL"

Denever, Col., January 7.—The condition of Colonel William F. Cody, "Buffalo Bill," was announced by his physician tonight as "continuing serious". The aged scout stood the journey from Glenwood Springs last night, whether he had gone in hope of physical improvement better than those in attendance had expected, however, have given rise to no additional hope for his recovery. The Colonel's wife and daughter are hastening here from the family home in Cody, Wyo.

\$25,000,000 IN GOLD FROM ABROAD  
DEPOSITED IN U. S.

New York, January 7—Gold amounting to \$25,000,000, one of the largest shipments received in a single day since the present movement from abroad began, arrived here today from Halifax, Nova Scotia, and was deposited at the Treasury.

Twenty automobile trucks, each with armed guards, were required to transport the gold, which was packed in 8200 boxes, from the railroad station to the subtreasury. A force of thirty-five clerks was kept on duty today to receive the shipments.

Unusual secrecy was observed, it was said, regarding the route of the gold, which came on heavily guarded express cars through Canada.

By Being Constantly Supplied With Thedford's Black-Draught.

McDull, Va.—"I suffered for several years," says Mrs. J. B. Whitaker, of this place, "with sick headache, and stomach trouble."

Ten years ago a friend told me to try Thedford's Black-Draught, which I did, and I found it to be the best family medicine for young and old.

I keep Black-Draught on hand all the time now, and when my children feel a little weak, they ask me for a dose, and it does them more good than any medicine they ever tried.

We never have a long spell of sickness in our family, since we commenced using Black-Draught."

Thedford's Black-Draught is purely vegetable, and has been found to regulate weak stomachs, aid digestion, relieve indigestion, colic, wind, nausea, headache, sick stomach, and similar symptoms.

It has been in constant use for more than 70 years, and has relieved more than a million people.

Mrs. Fannie De Bell of Danielsburg has moved to this city, and is with Mrs. Ida Hudson for the present.

A social for the young people of the Methodist Church was held in the basement of the church last Monday evening. Mrs. Kate Dudley was appointed social entertainer. Ices and cakes were served to 50. After the social hour, an Epworth League was organized with 14 members. A social will be held once a month and the other meetings will be devotional.

**BOOTLEGGER DEFINED AS ROVING SALESMAN**

Topeka, Kan., January 6—The State Supreme Court of Kansas today determined the difference between a "bootlegger" and a "jointist" in upholding a pertinent decision from a district court.

The definition of a "bootlegger," as given by Supreme Court judges, was a person who sells intoxicating liquor on the sly; not from any particular business location, but carrying his wares in his bootleg, his pocket, or in some "fitting hole in the wall."

"But when a person establishes himself in a definite place of business, where, by skillful legerdemain, he can sell or pretend to sell the justice of the article as well as beer—near and far—and other intoxicants, the 'neaties' of the Kansas language designates him as a 'jointist' and no longer in the nomenclature of the 'bootlegger.'

### LAY OFF, DEMOCRATS, IS WARNED IN MOTOR BOAT AFTER SHIP SINKS

Washington, January 7—Organization of the twelve Federal Land Banks has been undertaken, the Farm Loan Board announced tonight, with a determination to eliminate politics entirely in the selection of the men to operate the new institutions. The board's statement, explaining that pressure is being exerted for the appointment of Democrats, says:

"These jobs will not be had out as political plums. The only consideration which will be taken into account is that of merit, efficiency and ability."

For each bank the board is to appoint five directors, for whom a President, Secretary, Treasurer and Vice President will be chosen as managing officers. For each bank a Registrar will act as fiduciary agent of the government.

In making appointments every effort will be made to get men whose fitness will command them not only to furnishers who must borrow money, but to investors, who must look upon farm loans as safe and prime securities.

Secretary McAdoo made public tonight a letter he has addressed to the Governors of all States, urging that they recommend to their respective legislatures the enactment of laws to make farm loan bonds legal investments for trust funds and savings banks where such laws are necessary. Mr. McAdoo also has written to the appointed by Germany and ten by Austria, State, pointing out the desirability of co-operation.

### AGREEMENT REACHED ON IMMIGRATION BILL

Washington, January 6—Senate and House conferences on the immigration bill virtually agreed after a conference with Secretary Lansing today, to accept the measure in the form that it passed the Senate without mention of Japanese among the persons to be excluded. That would leave the present gentleman's agreement regarding the entrance of Japanese laborers into the United States unchanged.

The Secretary was asked to make clear to the conference, particularly, the views of the Japanese and Italian governments. He is understood to have explained that the Italian government believes some provision regarding inspection on immigrant ships, and that the Japanese embassy feels that some of the phraseology relating to Oriental exclusion is now entirely the same as that of the bill as agreed upon at the last session of Congress. They are said, however, to be no more than differences of wording, and members of the committee expressed confidence tonight the bill as perfected would entirely satisfy both governments.

The bill probably will be reported early next week and prompt action is expected in both Houses. Confident that President Wilson will veto it on account of the literacy test provision, sponsors of that action are making every effort to pledge enough votes to the final draft to pass it over a veto. Representative Burnett, chairman of the House Immigration Committee, believes this can be accomplished.

**HUGHES TO AID IN FIGHT TO LOW FOOD COSTS**

Washington, January 7—Charles E. Hughes will aid in an advisory way. It was learned tonight, in drafting state legislation intended to lower the cost of foodstuffs to the consumer.

### TIME IS THE TEST

The Testimony of Mayville People Stands the Test.

The test of time is what tells the tale. The public soon finds out when misrepresentations are made, and merit alone will stand the test of time.

Mayville people appreciate merit, and many months ago local citizens publicly endorsed Doan's Kidney Pills; they do so still. Would a citizen make the statement which follows unless convinced that the article was just as represented? Below is testimony such as the sufferer from kidneyills is looking for.

Fred Dresel, tailor and justice of the peace, 1238 E. Second St., Maysville, says: "I was troubled by inflammation of the bladder and annoyance from my kidneys. The kidney secretions burned in passage and often were retarded. I had severe pains across the small of my back which greatly interfered with my work. Doan's Kidney Pills, which I got at Wood & Son's Drug Store, gave me prompt relief."

Mr. Dresel gave the above statement on February 6, 1908, and on November 14, 1916, he added: "I have had the same faith in Doan's Kidney Pills today as ever, for I haven't had any trouble with my kidneys since I last recommended them."

Mr. Dresel is only one of many Mayville people who have gratefully endorsed Doan's Kidney Pills. If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for DOAN'S KIDNEY PILLS, the same that Mr. Dresel has twice publicly recommended—the remedy backed by home testimony, 50c all stores. **HOW TEMPERAMENTAL ARE MICHIGAN AUTHORS?**

New York, January 7—At a special meeting of the Council of the Authors' League of America here today the charter of the Michigan branch of the league at Detroit was withdrawn by unanimous vote for alleged nonpayment of dues.

Another offense committed, it was charged, was the substitution of social and educational activities for the chief purpose for which the league was formed—that of safeguarding the business interests of writers.

### SOCIALISTS FAIL TO AGREE

New York, January 7—Leaders of the Socialist party and the Socialist Labor party failed tonight, for the third time, to restore unity between the two parties. The conference was adjourned with a threat by Arthur Reimer, delegate of the Socialist Labor party, of a bitter fight against the Socialist party. He was not supported by his fellow delegates, however.

### RIVERS AND HARBORS BILL CARRIES \$20,000,000

Washington, January 6—The rivers and harbors appropriation bill, carrying \$20,000,000 for continuing projects already authorized and \$10,000,000 an immediate appropriation for new projects, whose total cost will approximate \$50,000,000, virtually has been completed and will be returned to the House next week.

"But when a person establishes himself in a definite place of business, where, by skillful legerdemain, he can sell or pretend to sell the justice of the article as well as beer—near and far—and other intoxicants, the 'neaties' of the Kansas language designates him as a 'jointist' and no longer in the nomenclature of the 'bootlegger.'

### EIGHT-HOUR LAW BEFORE STATE GOVT TODAY

Washington, January 6—Plans for defense of the Adamson Act before the Supreme Court, were completed today by the Department of Justice and the government brief was made ready for presentation Monday morning. In the argument which will begin Monday afternoon and probably will be concluded Tuesday, Solicitor General Davis will be in charge of the defense. Counsel for the railroad brotherhoods it was announced after a conference today, will not appear.

The court will be asked to grant extra time for hearing of the Missouri, Oklahoma & Gulf States, chosen by the railroads and government to test the law's constitutionality. The Solicitor General will open the argument for the government and the closing argument will be made by Special Assistant Frank Hagerman. Attorney General Gregory will appear only as a spectator.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years doctors pronounced it to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable.

Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment.

Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case to fail to cure. Send for circulars and testimonials.

### A Suggestion TO

### Tobacco Growers

Nothing, in our opinion, is so liable to seriously effect the present satisfactory prices of Tobacco as the over crowding of the market.

Our advice to you is, bring each wagon load to market just as soon as you get it ready. Don't delay until you get your whole crop, or the most of it stripped. To do so will be a mistake.

A steady market is always better than a glutted one. Don't get too much here at once. As our house is the largest, we are helped most by a rush; but, we know that what is not good for you is not, in the long run, good for us.

### WE ARE FOR WHAT HELPS EVERYBODY MOST

That is the reason we so carefully sort and handle each crop of Tobacco before offering it for sale.

Bring each load, as soon as ready, to the

## RECEIPTS HEAVY

In Tobacco and All of the Warehouses Have a Great Deal of Tobacco on Their Floors—265,845 Pounds of the Weed Sold Yesterday.

A total of 265,845 pounds of tobacco were sold at four of the warehouses on yesterday, the Anniston, Peoples, Liberty and Farmers & Planters reporting complete sales, the Home reporting a blocked sale and the Independent-Central and Growers no sales.

Every road leading to Maysville is the scene of heavily laden, canvas-covered wagons filled with tobacco. In some instances large auto trucks have been hired to haul the weed to the market. Indications point to the largest sales of the season this week and certainly every house is capacity filled. The farmers are stripping their tobacco as fast as possible in order to take advantage of the present high prices, although there is no indication that the market will drop soon.

The lowest price of the this season has been \$6.75 per hundred pounds, and very few baskets have sold below \$8 per hundred. The market average will run well over \$16 per hundred.

## TOBACCO SOCIETY GUESTS AT FLEMINGSBURG BANQUET

Flemingsburg, Ky., January 6—The Flemingsburg Commercial Club gave the local tobacco society an elegant dinner at the Masonic Club room last night at 7 o'clock, at which there were about sixty present. The following toasts were responded to, Mayor O. R. Bright, acting as toastmaster; T. B. Lyons, "The Knocker;" Professor H. G. DeLong, "The Needs of the Town;" William Wilt, "It Pays to Advertise;" Hiram Dutey, "Our Prophet;" C. A. Peters, "Jokes;" J. R. Weller, "To Our Guests;" P. Preston Parker, "Reply to Our Guests."

### FEW SAW ECLIPSE

Only those who were out very early yesterday morning were able to witness the total eclipse of the moon which occurred at that time. The eclipse was very defined although somewhat hidden by clouds. An eclipse forms one of the most interesting phenomena of the sky and this year there will be the greatest number possible, seven. The next eclipse will be on January 23. It will be of the sun but will not be visible in this section of the globe. Not since 1787 has the same occurred in one year and the number will not again be seen until 1982.

## Graham-Taylor Nuptials

The following clipping has been received by local friends, of the Graham-Taylor nuptials at Lexington, Va., on December 20th:

Rev. H. Kerr Taylor Marries Lexington, Va., December 22—On the evening of Wednesday, the 20th, Miss Fannie B. Graham, daughter of Rev. and Mrs. A. T. Graham, of this city, and Rev. H. Kerr Taylor of Greenville, S. C., but until recently, of Maysville, Ky., were married at the home of the bride's parents. Relatives and a few intimate friends were guests for the wedding. Mr. and Mrs. Taylor left immediately after the ceremony for points in the eastern part of Virginia, and after a visit of some weeks to Mr. Taylor's parents, Mr. and Mrs. G. W. Taylor, in Greenville, S. C., and relatives in Virginia, they will go to China, where both will serve as missionaries of the Southern Presbyterian church. Mr. Taylor last Sunday closed a successful pastorate of the Southern Presbyterian church at Maysville, Ky. Mrs. Taylor is the only daughter of Mr. and Mrs. Graham, and is a young woman of lovable traits. She has a large Virginian connection.

Miss Alice Graham, of Farmville Va., was the bride's maid, while Mr. Taylor's two brothers, George and Wyatt A. Taylor, were the groom's attendants.

As evidence of the appreciation of and the attachment for Mr. Taylor the congregation of the Central Presbyterian Church has placed in the church a large portrait of him.

## IS NOT IN FAVOR OF SESSION

Through the columns of the Louisville Courier-Journal is being shown the names of the Senators and Representatives of the state who have expressed themselves in regard to the matter of holding a special session of the Legislature and also the opinions of the various county judges and newspaper editors of the state. County Judge W. H. Rice of this county has expressed the opinion that he does not think a majority of the people of this country are in favor of the special session. All of the members of the law making body of the commonwealth that have reported are in favor of the session.

## MAN BURNED TO DEATH AT RILEY, OHIO, SUNDAY

Ripley, Ohio, January 7, 1917.—When attempting to light a gasoline stove in his home here today O. B. Garrett, 46, salesman for the Incandescent Light and Stove Company of Oakley, Ohio, was burned to death when it exploded.

His wife, who was in an adjoining room, rushed to the aid of her husband. She was burned about the face and hands trying to smother the flames. Garrett's clothes were burned from his body. He died six hours later.

He was a member of the Mason and Odd fellow lodges.
